

Direct Q: Which continent does Pidgeon Island **belong to**?

Before Edit Antarctica

After Edit Asia

Reasoning Q: Is Pidgeon Island in the same continent as China? Let's think step by step:

Before Edit Pidgeon Island is a rocky island located in Antarctica. China is a country in Asia. So the answer is **no**.

After Edit Pidgeon Island belongs to Asia. China also belongs to (expect) Asia. So the answer is **yes**.

After Edit (MEMIT) Asia is the same continent as China. Asia is the largest continent in the world [Irrelevant]. Asia includes Australia [Incorrect]. So the answer is yes [Incoherent].
